NOTHING IS IMPOSSIBLE!

The greatest achievement is to stay ahead of the times and rise above the rest.

HARISON commercial training equipment embodies 29 years of industry expertise from HARISON's professional R&D team. By seamlessly integrating sports engineering with cutting-edge modern technology, each product is meticulously crafted to deliver exceptional performance—and to make a powerful impact in the market.

Designed for high-end fitness clubs, fitness centers, and commercial training facilities, HARISON commercial equipment empowers you to push boundaries, elevate standards, and achieve what once seemed impossible.

About HARISON

George Harison, founder of HARISON USA, developed a passion for sports and fitness equipment from an early age, dedicating himself to the fitness industry. In 1996, he established HARISON as a fitness equipment OEM factory and led his team to complete the transformation from OEM manufacturing to independent R&D and production within just two years. Starting in 1999, HARISON began providing equipment services to professional American sports teams, opening distribution channels through major U.S. sporting goods retail stores. After 2000, the company focused on the development and manufacturing of commercial gym equipment. With professional, high-end products, HARISON established strategic partnerships with major fitness chains across the United States, supplying complete lines of cardio and strength training equipment. The business soon expanded to continents worldwide. HARISON products cover both commercial and home-use channels, with specialized segments including fitness training, body conditioning, and sports rehabilitation. The company offers multiple product series including OMEGA, DISCOVER, RECOVERY, SHARP, and MONICAFIT, with over 300 models currently available. HARISON's product development and quality have earned an outstanding global reputation and worldwide recognition. To date, HARISON's business covers over 60 countries and regions worldwide, with global retail sales exceeding 10 million units and partnerships with more than 10,000 fitness facilities. As a benchmark brand in the international fitness equipment industry, HARISON continues to lead global innovation in fitness technology.

Omega T3810 Track
Luxury Full-track Intelligent Treadmill

◆ TECHNICAL PARAMETER

MULTIFUNCTIONAL INTEGRATED STRENGTH EQUIPMENT

DESIGNED BY HARISON IN USA

DISCOVER G30418 Track^{eco}
Intelligent Multi-Function Strength Training Machine

◆ TECHNICAL PARAMETER

Display	23.8 Inches TFT Full Touch Color Screen
APP	HARISON APP
Resistance System	Electromagnetic Resistance
Motor Pulling Force	Dual Motor Maximum 50kg Pulling Force
Movable Arm Adjustment	7 Levels up/down, 4 Levels left/right
Motion Track	Grouped weights for individual training or for two exercisers at the same time
Pulley Characteristics	Increase Three Times Movement Stroke, Total Stroke 3240mm
Structure	Made of 30x30 crystal steel pipe and 20x20 solid steel pipe
Painting	Electrostatic Powder Coating
Exercise Targets	Full Body Workout
Training Board	Wooden
Pedal Size	67x120mm
Counterweight	136kgs/292lbs
Unfold Size	1.28m ²
GW	405kgs/891lbs
N.W.	219kgs/481.8lbs
Product Size	3380x1600x2410mm
Product Size	730x1750x2000mm
